

2019 China garlic Price forecast

The garlic price in 2019 going to be firm and lightly increased based on the following opinion:

1. After review the data of last two years, each year 1.7 million MTs China garlic are exported to the worldwide. 2019 will have a better performance with the 'one belt and one road initiative' established.
2. Diversity utilized the garlic, such as the wine/cosmetic/drink etc.
3. The China planting pattern has the ability to preventative the market risk after more than 20 years scale plantation.

China fresh garlic has already export to the worldwide more than 20 years, it has got the mostly thumbs up. Surly our Pioneer Garlic Group will continually focus on kinds of garlic product export based in the China garlic hometown.

The price maybe changed a lot at one moment, but it has the trend to forecast and analysis since the more accurate data collected.

Any concerning about the China garlic, please contact via +86 18654775255 or the following web
